DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 2/13/04 and 5/10/04 are acknowledged and considered.
2. After careful reconsideration of this application, a new office action is made as follow:

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 9, 14, 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yoon (5,695,505) in view of Yoon (5,665,109). Yoon '505 discloses an apparatus for use in endoscopic procedure including a clip, a suture and a needle attached to the clip through the suture. Although, Yoon '505 does not disclose a needle holder as claimed, attention is directed to the Yoon '109 reference which teaches an endoscopic needle holder including inner tube and outer tube as claimed. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to use a needle holder as disclosed in Yoon '109 for the apparatus of Yoon '505 in order to carry out an endoscopic procedure.

Art Unit: 3731
